

Mom (Mary), an older attractive looking woman, tucks in her daughter (Sofia) for bed, a cute little girl that's missing a front tooth. As mom is sitting on Sofia's side she is telling Sofia about the tooth fairy and the money the tooth fairy leaves for little kids teeth. Sofia looks excited and can't wait till the morning so she can get the money for her tooth.

MOM

Don't forget to put your Tooth
under your pillow for the Tooth
fairy. The Tooth Fairy gives you
\$5 for every tooth.

SOFIA

With a big excited smile and the thought of \$5 she puts the tooth under her pillow.

OK!

MOM

Mom gets up and is heading for the door to turn off the lights

Sweet dreams sweetie!

SOFIA

Good night mom!

INT- MOMS BEDROOM SAME NIGHT

Sofia is standing at the side of her moms bed as her mom sleeps.

SOFIA

Mom!

MOM rolls over half asleep with squinting eye as she tries to focus and figure out why Sofia is standing at her bed in the dark.

MOM

Sweetie, Whats wrong? Everything
ok?

Sofia raises her hand that is holding the hammer and begins to hammer as hard as she can on her moms mouth knocking out her teeth. Blood is flying everywhere as the hammer hits Mary's mouth. We can hear Mary's slight screams of pain with every blow.

INT- SOFIA'S BEDROOM NIGHT

Sofia is getting into bed and putting her mom's bloody chipped teeth that she just knocked out under her pillow for the tooth fairy so she will get more money.

INT- SOFIA'S BEDROOM NIGHT

2

We see a pair of legs. The most ugly disgusting legs to say the least. Standing at the side of the bed reaching under the pillow to retrieve something. Hand with broken dirty long nails pulls out 5 or 6 bloody teeth. As its hand pulls back the motion wakes up Sofia. Sofia turns to look back over her shoulder to see the demonic Tooth fairy. We notice that Sofia eyes have turned black, same as the demonic tooth fairy. We finally get a full view of this Tooth fairy as it opens its mouth to show its gums are nothing but bloody disgusting pockets where teeth use to be.

END.
