

## Chicken Dinner :30 Child Script

*Open on a small girl standing in an apartment doorway in roller skates. She holds out her hand, gesturing.*

**KID:** This...

*Camera zooms down the hallway and freezes on a woman at the end of the hallway.*

**KID:** ...is my mom, Sarah. She works AND goes to school. All to make a better life for us.

*Camera unfreezes as she continues to walk down the hallway. Camera switches back to the little girl as she continues talking and begins setting the table.*

**KID:** And even though she's busy, she always makes time to grab dinner for our family. But today, it looks like she's changing what we usually eat.

*The little girl on her tippy toes strains to see what is in the bags as the mom unpacks them.*

**KID:** Are those French Fries? Fried chicken perhaps?

Nope.

She's bringing home rotisserie chicken and salad. A healthy choice that's lower in fat AND low in cost too.

*The girl, grandma and baby stare at the food, questioningly.*

**KID:** But... will we like it?

*[DRAMATIC PAUSE] Daughter takes a bite and then smiles.*

**KID:** We love it!
