

## Spilled Milk :30 Teen Script

*Open on a rancher walking a cow up to a table or surface on the ranchland.*

*Rancher picks up and holds up an arsenic bottled labeled "poison."*

*Rancher gestures to a bowl of lead labeled "toxic" and formaldehyde frog jar.*

*Rancher reaches to feed the cow hay.*

*Cut to the Rancher holding up a vape.*

*Rancher gestures over the table of chemicals and metals. Zoom or cut in close on the rancher. Cut to End Card.*

**RANCHER: Hey, let me ask ya something...**

**RANCHER: If I put a little arsenic in my cow's water every day, would you drink it's milk?**

**RANCHER: What if I put some lead and formaldehyde in it's food, would you eat its meat?**

**RANCHER: Probably not. 'Cause they're toxic. Even small amounts could cause brain damage, lung disease, or cancer.**

**RANCHER: So if you wouldn't let a COW drink it or eat it, why the heck would YOU inhale it?**

**RANCHER: Vapes contain these toxic chemicals and more. Learn more at [Down and Dirty Life.com](http://DownandDirtyLife.com).**
